NORTHWEST NOTES

Girl's Kidnapper Arrested.
Colfax, Wash.—Guy Gregory, aged 23, charged with kidnapping Mary Owens, aged 12, from her home at Simons, near Walla Walla was arrested by Deputy Sheriff Cole near Winona and turned over to Sheriff Hayland of Walla Walla Saturday. Sheriff Carter found Mary Owens at Riparia. Gregory having left her there expecting to send for her in a few days. Gregory claims to love the girl.

Ice Weather Reported.
Stites, Idaho.—While reports from the east are daily bringing news of heat prostrations the dwellers at Mountain House, a resort 25 miles from here, are working to keep the pipes from freezing. Stites is now considering the report of E. M. Clark that there is half an inch of ice coating on all the pools and ponds in the Mountain House district.

When the winter season passed at Mountain House the only difference in the weather appreciable was that noted in the calendar. Clark, when asked if the ice was likely to get thick enough to skate on by August 1, is reported to have assured the questioner that for ordinary skating purposes a small man might easily be supported now without danger of a plunge into the icy waters.

Vast Fires Get New Hold.
Wallace, Idaho.—Forest fires Saturday were worse than ever. At Graham creek fire has broken across the North Fork of the Coos d'Alene river and is being held by only 15 men. If this fire is fanned by the high wind at this time more than 200,000,000 feet of splendid timber will be destroyed, in addition to the tremendous area already burned.

At Murray a terrific struggle is being made with the fire in that section and every available man has been requested to help save the mill and plant of the Bear Tom Mining company, one of the best mines of that section.

Fifteen more men have been sent by the forestry department to Pine creek and 35 of the great blaze at the head of the St. Joe river. The situation throughout the county is absolutely desperate and fresh fire disasters are reported almost hourly.

Last Hoodligger Fined.
Eugene, Or.—Harvey Jones, the last one of the gang of hoodliggers arrested over a week ago to be convicted, was fined \$200 and sentenced to the county jail by Judge Bryson of the justice court Saturday. Eight persons were arrested and every one was either convicted by jury or pleaded guilty.

Fair in Lincoln County.
Toledo, Or.—A meeting of the committee of the Lincoln county fair association was held at Toledo Tuesday evening. The fair is to be held September 6, 7, 8 and 9, and will be the biggest ever held in this county. The Corvallis & Eastern railroad has promised a rate of one fare for round trip tickets during this fair. One feature of the fair will be Elk day, and another Benton county day, on which days special excursions will be run from Corvallis and Albany. Delegates from all parts of the county were at the meeting last evening and it was decided to erect a large permanent exhibit building to be 40-100 feet.

SENATOR ABRAHAM WOULD BE GOVERNOR
Salem, Ore.—State Senator Albert Abraham, of Douglas county, Saturday filed his declaration of intention to become a candidate for governor in the republican primaries. He wants printed opposite his name on the primary ballot the following legend: "Party organization on Hughes-Taft-Roosevelt plan."

His declaration contains the following statement of his platform: "If I am nominated and elected, I will, during my term of office, strive to uphold the constitution and laws of this state and United States and to attain the blessings of liberty, peace, honor, harmony and prosperity, to secure and maintain a truly representative party organization as the best means of securing representative government, and the primary plan favored by Governor Hughes, President Taft and Ex-President Roosevelt, as the best means yet devised of securing truly representative party organization."

A Plain Statement of Facts.
Samuel McWylie, Bloomington, Ind., a veteran G. A. R. man, with a record of whom any soldier might be proud, writes us of his physical ailments contracted while in the army. He says: "While I was in the army in 1863, I was taken down with inflammation of the liver, which later developed into kidney and bladder trouble, and ever since then I have tried to effect a cure but have been unable. I have used a great deal of medicine and doctored, but Foley Kidney Pills have done more good for me than anything I have ever taken and I gladly recommend their use. A. C. Koepfen & Bros."

LIFE OR DEATH FROM WATER AT MEAL TIME
Chicago.—Drink water with your meals?
Never. It—
Chills the stomach,
Paralyzes the digestion,
Dilutes the gastric juices,
Interferes with proper mastication.
And will send the daring person who ignores the physician's warning to a dyspeptic's grave.

Drink water with your meals, and if you are fat you will become thin; if you are thin you will grow fat; you will find again your lost appetite and keep cool in the hottest weather.

Above is the advice Chicago physicians have for you. You can pay your money and take your choice, only you do so at your peril and amid the dire predictions of one or the other camps of doctors.

Announcement made by Professor P. B. Hawk of the University of Illinois that he has concluded experiments which apparently overthrow one of the pet theories of the medical profession stirred up as heated a discussion among Chicago physicians as they have ever waged. The teaching of years must go by the board if the views of this donkey are to be accepted, many declared.

Opinions taught in every medical school in the country must be admitted false. But when asked, at the instance of the investigators, if they knew of any experiments confirming their belief in the harmful effect of drinking water during meals, they admitted they did not. It seemed so self-evident that nobody thought of wasting time gathering proofs together.

Baby Morphine Fiends
are made by all soothing syrups and baby medicines that contain opium and narcotics. McGee's Baby Elixir contains no injurious or narcotic drugs of any kind. A sure and safe cure for disordered stomachs, bowels and fretfulness—splendid for teething infants. A. C. Koepfen & Bros.

Insisted on Occupying Separate Room and Divorce Followed
New York.—Eleanor Maude Gerow, the "invincible modest bride," is no longer a wife of Albert H. Gerow. Her modesty proved such an obstacle to their matrimonial happiness that Supreme Court Justice Bischoff annulled the marital contract at the request of the husband. At the expiration of three months either or both parties will be free to remarry.

The case of Gerow versus Gerow is regarded as unique. It is the first time in the history of the New York courts, so far as is known, that the law has separated husbands and wife because the woman, although willing to be married, was unwilling to be a wife. Technically, the bride was guilty of "fraud" in having led her husband to suppose that they were to be more than "just friends" after the marriage ceremony.

Graduate of Wellesley.
The bride is the daughter of Thomas Naum, of Malden, a suburb of Boston. She is a graduate of Wellesley College, and highly accomplished in music and art. Five years prior to her marriage to Gerow on April 2, 1909, she became acquainted with him. Some time in March, 1908, she promised to be his wife. They were married at the home of the bride's parents in Malden.

Mr. Gerow informed the court that he brought his bride directly to New York City. They arrived at the Hotel Belmont about 10 o'clock that night. To the surprise of the husband, however, the bride insisted on occupying a separate room. Caretresses failed to move her.

The two nights that followed were duplicates of the wedding night, so far as the relations of Mr. and Mrs. Gerow were concerned. On April 25, Mrs. Gerow quitted the hotel and returned to her Boston home. Then ensued a correspondence that resulted in Mr. Gerow going to Boston a few days later and persuading his bride to return to New York with him.

Mrs. Gerow did come back, but on arriving here went alone to the Murray Hill Hotel and remained there "in single blessedness" until some final furnishing to their residence had been adjusted.

On May 20, 1909, Mrs. Gerow moved into her home. During her brief stay there, her husband charged, their marital status remained unchanged. The super-moist bride told him, he alleged, that she never intended to permit their marriage to be other than a platonic relationship or intellectual comradeship. She kept her word to the letter.

Raid Jail for Farm Aid.
Georgetown, Ky.—A novel method to save the wheat crop of Scott county was resorted to when a number of farmers appeared before the county judge and paid the fines of ten prisoners in the jail in order to get help to harvest the crop. In several instances the fines ran as high as \$30. All the prisoners went willingly.

FIND POLICEMAN'S LOT STILL NOT A HAPPY ONE

New York.—An investigation just completed shows that the average policeman is far from having the easy time he has been supposed to enjoy. At a single station house it was discovered that no less than 15 men have been forced to pawn their dress uniforms. A great number are in the habit of pawning their summer uniforms in the winter and their winter uniforms in the summer.

The policeman's annual pay, it was shown, begins at \$500 and after five years service increases to \$1400, at the rate of \$1000 a year. However, the rules, regulations and customs of the department cut a large slice from these figures. To begin with, as soon as a man indicates a desire to join the force, it is suggested that he fit himself for the mental and physical examination by attending some one of the private preparatory schools. The fee for each of the two courses is \$50 so that right at the start \$100 of his first year's salary is gone.

Then 2 per cent of each policeman's salary, amounting to \$16, the first year, is regularly deducted for the pension fund, leaving by this time \$884 for the first 12 months' service.

Every policeman must have three uniforms costing altogether \$155, and though they are undoubtedly worth the money the original \$500 is further reduced to \$529. Other equipment, repairs, dues and the like, with a total altogether of \$333, bring his net salary down to \$467 for the first year or less than the amount earned by the day laborer.

Loss of Appetite is commonly gradual; one dish after another is set aside. It is one of the first indications that the system is running down, and there is nothing else so good for it as Hood's Sarsaparilla—the best of all tonics.

INDIAN WOMEN SEARCH.

Hunt for Bodies of Relatives Who Drowned in the Yakima River.
North Yakima, Wash.—Two Indian squaws, Mrs. Wild Man and Mrs. Louis Pims, who have been searching for weeks along the banks of the Yakima river for the bodies of the former's husband and the latter's son, drowned some time ago, called at the sheriff's office for information regarding two bodies reported found at Prosser.

Despite the fact that the Benton county sheriff, when called up over the phone, said that the bodies had been identified, the Indian women were convinced that they were their lost ones and set out at once for Prosser.

The Pims boy went over the Sunny-side dam and Wild Man lost his life trying to swim the river in an effort to recover Pim's body. The women live near Wapato and will not rest contented until the bodies are buried in the tribal burying grounds.

FIRST GUILLOTINE FOR CHINA IN PLACE

Pekin.—The first guillotine to be employed in China has arrived here from France. It will be set up inside the new prison, as, according to recent regulations, executions will no longer be public.

Penalty of death, as laid down in the old code, had six degrees—death by torture, immediate decapitation and exhibition of the head, decapitation after some months, immediate decapitation without exhibition of the head, immediate hanging and hanging after some months.

According to the new code the death penalty is in four degrees—immediate decapitation, deferred decapitation, immediate hanging and deferred hanging. The advantage to the condemned person of a deferred execution consists in the fact that every year the list of names of those under sentence of death is submitted to the Emperor, and under the names of such as are to be executed he draws a red line. The others escape for that year, but must take their chances the next year and every successive year, when the same formality is gone through on the part of the sovereign.

WALLA WALLA WHEAT IS UNUSUALLY GOOD

TOP NOTCH PRICES FOR FIRST OPENING

New Crop Wheat Breaks All Records—Fall Wheat Is Better—Crops This Year Will Be One of Most Profitable in Years.

Walla Walla.—As harvest advances, prospects for good returns for this year's crop increase and the past week's developments were of a particularly encouraging nature. First of all new crop wheat broke all records for high prices. Then France bidding for Walla Walla wheat strengthened the local market. Continued good yields are helping and the extra quality of the grain is also an aid.

Prices on wheat started at 90 cents for the new crop. This went to 90 1/2-cents in another day, and on Thursday 91 cents was offered, farmers generally holding for a higher price. This is, of course, for blue-stem, club ruling about 6 to 8 cents lower.

Fall Wheat Better.
Spring grown wheat will not make as good a crop as the fall wheat. This is shown by the test made of spring grain, which went but 57 pounds, while fall grain has been going 60 to 62. However, the spring grain tested was on light land and the comparison will not hold on the whole crop.

Yields of from 35 to 50 bushels are most common, and fall grain will average well above the first quoted figure. From the lower end, where the soil is light, and burning is most feared, there is but one report: Good crops. There is no bumper yield, but the wheat, generally speaking, is up to average, if not above.

Crops Profitable.
Prices will make the crop one of the most profitable for years. However, there is one thing against the big returns idea and that is that spring grain is yielding far under fall sown wheat, both in weight and quantity. As there was much less than the usual amount of fall sown wheat, this will make an appreciable difference in the money returned to the Walla Walla valley as a result of the wheat harvest this year.

The total absence of smut is proving a blessing to the farmer, and so far there has not been a single accident by fire or explosion. This is a decided relief over the trouble of last year, when machine after machine was destroyed by smut explosions.

The first accident of the season came this week, when Thomas Blue's separator tender on a combined machine, lost the fingers of his right hand in the gearing. Up to this time, however, there have been remarkably few accidents in the grain fields.

There are plenty of men to fill the crews this year, and farmers say they are getting a better class of labor than ever before. Just why this is has not been explained, but the fact remains that there are few idlers on the streets and at the same time no jobs going begging; while every man who is looking for work has been able thus far to find it.

ANOTHER WOMAN CURED

By Lydia E. Pinkham's Vegetable Compound

Black Duck, Minn.—"About a year ago I wrote you that I was sick and could not do any of my housework. My sickness was called Retroflexion. When I would sit down I felt as if I could not get up. I took Lydia E. Pinkham's Vegetable Compound and did just as you told me and now I am perfectly cured, and have a big baby boy!"
Mrs. ANNA ANDERSON, Box 19, Black Duck, Minn.

Consider This Advice.
No woman should submit to a surgical operation, which may mean death, until she has given Lydia E. Pinkham's Vegetable Compound, made exclusively from roots and herbs, a fair trial.

This famous medicine for women has for thirty years proved to be the most valuable tonic and invigorator of the female organism. Women residing in almost every city and town in the United States bear willing testimony to the wonderful virtue of Lydia E. Pinkham's Vegetable Compound. It cures female ills, and creates radiant, buoyant female health. If you are ill, for your own sake as well as those you love, give it a trial.

Mrs. Pinkham, at Lynn, Mass., invites all sick women to write her for advice. Her advice is free, and always helpful.

Miracle Cure for home Treatment

The world knows Chinese doctors, with powerful and wonderful Chinese remedies, cure all diseases successfully. If you are out of health, unable to regain it, write us today and describe your symptoms. We accept only curable cases. York & Co., Chinese Medicine Co., 110 W. Main St., Walla Walla, Wash.

After suffering with rheumatism for many years, other doctors not curing me, I wrote Dr. York & Co. for treatment. Their wonderful treatment cured me within a month, and now I am permanently cured, for which I write this true testimonial. If any one suffering, wishes to know more about their treatment, they can write me.
